

# Guarantee of Independence

The Across Money-Back Guarantee for Language Service Providers

## Rely on Independence

You shouldn't have to compete with your vendors. As a language service provider, it is important for you to build your business on the best technology possible — without supporting your direct competitors.

Across understands. As the world's No. 1 independent technology for the linguistic supply chain, we're dedicated to providing you with leading software solutions without competing with you by offering translation services.

## Rely on Across Systems

Independence is core to our shared business initiatives — and that's not subject to negotiation.

Across Systems is privately held, so we can make decisions based on true long-term value to our customers, and never compromise for the sake of short-term trade-offs.

Don't believe us?  
We'll put our money where our mouth is.

## Money-Back Guarantee

Across takes technology independence so seriously that we are offering a money-back guarantee.

If we merge with or are acquired by another language service provider within 5 years of your license order, we will pay back all license fees you as a language service provider spend for Across technology through 2009, no questions asked. Your Across licenses will remain your property.

That's proof of our commitment to never compete with you, our customers.  
Can other technology providers promise you that?

**You can rely on us. We guarantee it.**
