

For Immediate Release

Across Systems Announces Spring 2010 Conference and Exhibition Schedule

Localization workflow and project management efficiencies addressed

LOS ANGELES – Mar. 3, 2010 – [Across Systems](#), supplier of the world's leading independent linguistic supply chain technology, is continuing its educational presentations and exhibitions of its translation management software with a new schedule for Spring 2010. The company will exhibit at several events and provide experts to educate globalization professionals on ways to increase productivity and simplify workflow processes.

Upcoming presentations and exhibitions include:

- **[Worldware Conference 2010](#)**
March 16-18, Santa Clara, CA, Hyatt Regency Santa Clara – This conference explores how software technology helps companies to release international products on time and within budget. Across will exhibit in booth # 1.
- **[11th Annual ATA-TCD Mid-Year Conference](#)**
March 18-20, Scottsdale, AZ, The Fairmont Scottsdale – This industry event is specifically tailored for translation company owners and senior managers. Educational sessions cover issues that are critical for businesses and will boost companies market share and benefit their bottom line.
- **[The Localization Certification Program](#)**
March 22-26, San Francisco, CA, San Francisco State University Downtown Center – This program was developed by industry experts representing the leading professional associations, publishers, and academic institutions in the field, in response to the growing demand for localization professionals. Daniel Nackovski, president of Across Systems, will educate companies in the emerging localization and international e-business field, through two workshops, Localization Workflow: Tool Application on Monday, March 22 and Localization Project Management Tools Lab on Tuesday, March 23.
- **[LISA Forum 2010](#)**
April 13-16, San Francisco, CA, Crowne Plaza Hotel – This event brings together leading companies from the United States and around the world that are engaged in outsourced product development and globalization services.

About Across Systems

Across Systems (www.across.net), based in Karlsbad, Germany, and in Glendale, CA, is the manufacturer of the Across Language Server – the world's leading independent linguistic supply chain technology.

The Across Language Server is a central software platform for all corporate language resources and for controlling translation processes and workflows. The system simplifies, accelerates, and improves the management, coordination, and implementation of translations. Open interfaces enable the direct integration of corresponding systems, e.g. CMS, catalog, or ERP solutions. By using Across, translation costs can be cut drastically, and the investment in Across usually pays off in a very short time.
